

The Green Engineer, LLP

Sustainable Design Consulting

**134 Angell Street
Brown University
Providence, Rhode Island**

This 60,000 s.f. complex will house the Department of Cognitive & Linguistic Science and Brain Sciences Program. The \$19 million building will include an auditorium, lobby, and classrooms as well as lab spaces and offices. The new facility is expected to receive a Silver LEED Certification.

For this project at Brown, The Green Engineer:

- Introduced the LEED program and described roles and responsibilities of all team members;
- Organized and coordinated the preparation of the documents required for the assessment of 134 Angell Street under the LEED rating system;
- Provided detailed energy modeling services to assist both the design process and to substantiate the achievement of LEED credits.
